
Parent Training: RAISING HIGHLY CAPABLE KIDS

How do we help our kids thrive in these challenging times? You are invited to participate in a parent program designed to help build stronger families by giving you more skills and tools to raise healthy, caring, and successful children throughout life's ups and downs. The program is based on the Search Institute's 40 Developmental Assets, a list of valuable supports and strengths of children and youth.

The Search Institute identifies "external assets," the supports, opportunities, and relationships young people need across all aspects of their lives; and "internal assets," the personal skills, self-perceptions, and values they need to make good choices, take responsibility for their own lives, and be independent and fulfilled. When youth have more assets, they are more likely to thrive and to be resilient in the face of challenges, and less likely to engage in high-risk behaviors.

This program is open to parents, grandparents, and any other adults who want to help children succeed. It is being offered in English and Spanish.
