# RAISING HIGHLY CAPABLE KIDS: *Facilitator Training*

---

Raising Highly Capable Kids is an interactive curriculum for families that is based on the 40 Developmental Assets from the Search Institute. Developmental Assets are 40 research-based "experiences and qualities" that influence children and youth development. The Raising Highly Capable Kids curriculum help parents learn and apply the developmental assets to raise healthy children.

This facilitator training is designed to build the capacity of faith-based leaders, community organization leaders, and school staff to implement the Raising Highly Capable Kids parent curriculum.
